# Story

I remember the first day of in class school. I was so nervous and excited to finally go back to school. I was so excited to finally go back to normal. When I was in the car I was thinking about how I couldn't believe it. I think that everybody has gone through a lot so I think we all have to see the bright side of every little thing. Live

Life with color means always stay positive and enjoy life. Life is full of ups and downs. Make sure that you see the best in every situation, sometimes you may think there's nothing good in the situation but there is always good in the world.

This theme is important because every person is going to go through achievements and failures.
