Opening story

To begin with, the theme **DREAM TO BELIEVE** connects with the students at Gulliver. For example, most of us in school have a dream on what they would want to be when they grow up. For instance, if someone wants to be a doctor when they grow up, Gulliver can make things happen by helping the child finding who he or she truly is and believing in him or her that he or she can become a doctor. This shows how the theme of the yearbook is related to the school and the students at Gulliver. This theme is what makes us very unique and and creative from other schools, Here in Gulliver they help people from school make dreams happen.

SPINE *Information*

Name of school: Gulliver Academy

City and state: Miami/Florida

Year:2019-2020

Volume: 38
