

# ***NEW TAKE***

*By: Rafaela Savoia and Clara Sanchez Lago*

# Theme:

Description: We are coming back from summer and ready to have the most amazing year ever. The past 2 years have been funky and crazy since covid took over. Those zoom calls and many new kids coming into the school. The rules were off and we were able to do anything. So this was us coming back for a brand new take.

Since some people haven't seen each other for a whole summer, this was the year of coming back to socializing, making new memories, and making new friends. People walked through the gates of Gulliver with open arms ready to hug all their friends. We all have started happy and delighted to come to school. It was a whole New Take on our usual year- new deans, new teachers, new buildings, new students! Everyone got a chance to make this new year theirs.

People went beyond the moon for halloween costumes last year. All kinds of costumes around the hall and so expressive. They all went insane with the ideas. Ski girls, construction workers, and clowns. But this year was even more than that. For spirit week the students went off with their crazy ideas and outfits! From tutus, tie-dye, paint everywhere, and much more!

We are back, ready to take on anything!
