*We stepped out of the car on the first day ready to put on a front. New students didn't know anyone. Eighth graders wanted to be cool, as the oldest students on campus, and go out with a bang. Everyone picked out their green Stan Smiths and threw up fours- they wanted to be same as everyone else.*

*Throughout the year we found ourselves. Darriell Cannon (Fat Cat) became a famous rapper on Spotify. Eighth grader India Bradley going to the Junior Olympics. Seventh grader Finn Granger sailed across the globe. Seventh grader Chandler Allen was a representative for heart issues in kids and teens.*

*As we cleared out our lockers on the last day, everyone had become their true selves. Eighth graders we walked through the Upper School gym for promotion. We all realised we were real. From when we stepped out of our car on the first day and into it on the last this year was a real one and one we remember.*

*Alt. Titles: For real,*
