

Under the Mask

By: Mia and Fran

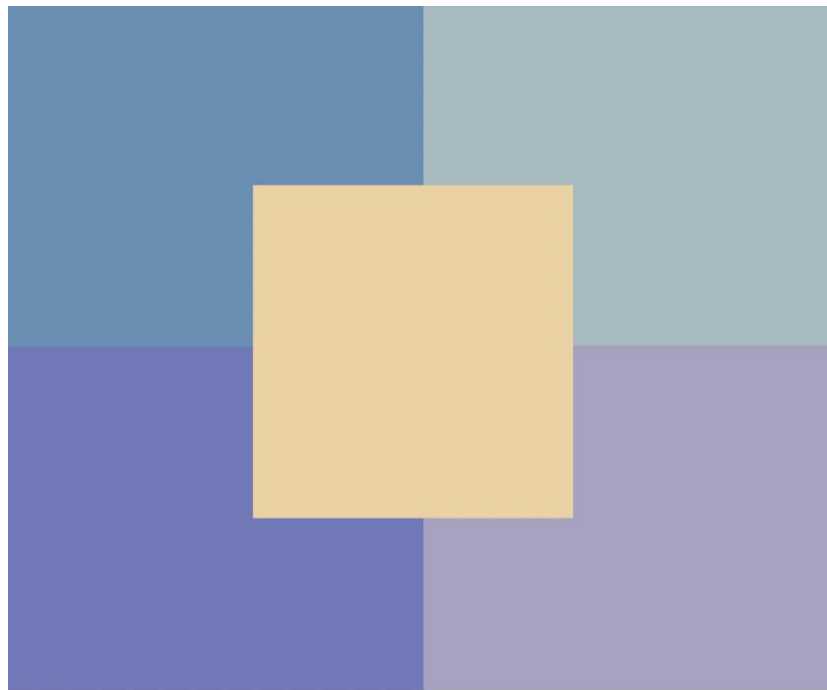

Under the Mask

Under the Mask would be about how this year showed us that if we are thousands of miles apart, the Gulliver community is strong enough to keep us together. It would show that even through the changes we can still come together and make a difference. Or as well as the changes on campus. We are adding onto a very big establishment and it is going to make a big difference.

Fonts

1. Schoolbell. It looks like a bubbly handwriting.
2. Didact Gothic. It looks very clean and easy to read.
3. Cabin. It looks like the previous one, just a little bolder and fun.

Theme Copy

Most students didn't expect to be back in action this year, but we are and it's better than ever. But thanks to Gulliver's staff, they made this year seem normal even when the times are rough. Thinking about it, a lot of things came by surprise. Like the online Halloween parade. It wasn't like every other year, but we still had a blast. Or the new building being built. It definitely put a block in our path, but we moved around it and made the best with what we had. Or our annual school trip. It was the first trip that the seventh graders have taken all of middle school, and it definitely lived up to our expectations. Between the fun competitions, to the bus rides, to bunking with our friends, we really had one of the best times this year. And even though we still had masks, we still showed people who we truly were. All together, this year, even **Behind the Mask**, was a great one nonetheless.
