and Sydney

Unlocked

We chose this theme because we think the idea unlocking new memories goes with the year. We have done a lot of new things during the school year. We also liked the idea of the locker because we just got our lockers back!

Font- *cedarville cursive* and
lora

We think this theme is
fitting because we are
getting back into the
rhythm of how things were
before covid.

Color palette- red, gold,
silver, and white

We went through so much this year in 2021: we have battled through COVID-19, masks, and even schedule changes.

Picture last year: classes on zoom, sitting in bed, staring out the window.

This year, all the doors were unlocked.

New buildings were rising up outside our classrooms; we awaited them with anticipation. We explored new class courses and clubs, from bracelet-making to Minecraft to investing. New faces that we'd never seen before filled the campus.

At football games, we walked with our friends out to the field and took a seat in the bleachers under the nice shade.

Friends, classmates, and parents filled the stands.

Who knew being back in the classroom would be so exhilarating? The art room was alive and the math class was focused.

Our assemblies were loud and full of spirit under the Sun in the A Courtyard.

During the year we have unlocked so many new memories!
