Last year was really hard. We faced a pandemic where a lot of people died. We went through bad moments. We couldn't be with the people we care about.

School was different. Some students were online. Some went to school, but they had to wear masks and socially distance. We couldn't even see our friends' faces.

But now we're all back together. We can be with our friends. We can eat lunch together and have fun. We are all together for classes. And there's even new things: recess, community time, and a new schedule. Things have really changed.

The hardships of last year taught us there was nothing to lose. We're excited to be back together after all we've been through. We are stronger than ever.
