Theme Description

We picked this theme of stuck in the middle because we are in the middle of our school life in middle school. Many people are in new transitions. Finally we have a lot of new rules this year.

Ten sentences

We were in the middle in many ways this year. New kids, new administration, new buildings- everything was in progress. So were we.

We went on field trips to learn more. We tried out for plays, hoping we'd be cast. We walked through the construction on campus and found our way to our classes. We got to know the new administration more and more. We learned our new rules. We met new people.

Sometimes it could feel overwhelming, with so many things we were in the middle of. But we took a deep breath and followed through with an Idea.

We made our way through to the end.

We still have goals that we need to complete, work to be done. But we're used to it. We will make it through, even if we're in the middle right now.
