# Theme:

Description: The new school year was here. Not only that, but it is going to be an exciting year for Gulliver, we have our new building being done, as well as our dress code has been more relaxed; many new updates coming up this year.

We arrived to campus on the first day with anticipation. There was new administration, new rules, new people and new construction. We felt the need to make this year the best in every way. We wanted to be the best- get good grades, make it to championships in our sports, and win awards in our electives. This is it.

This there have been many exciting changes that really changed the way people see us. The new building, our new staff. All these things have made a huge impact on Gulliver and us students. This is our year, This is it.
