

# Theme

## Description:

Our theme is very calm and relaxed. We choose to do an aura because it really fits our mood and energy this year. So far I have noticed that many people are very happy and not as stressed as last year. This year has been better than ever because after everything that we have been through we are finally back to normal.

# Theme

It was the first day of school: everyone's faces lit up after walking on the new beautiful tile and seeing our new building. Everything looked better than ever.

The campus didn't just look different- *everything* was different. New uniform policies, new schedule, new people. It was different for the better. Laughter filled the halls, students traded World Cup stickers, people posed for BeReal. You could tell this year was going to be great.

And it was: people dressed up in crazy halloween costumes. The football players burst out of the blue arch. Students auditioned for the play Charlotte's Web. Beta Club members toured future students.

It's amazing how many good things can change in just one year. We all feel like a big welcoming family and everyone knows this year will be better than ever.
