

Theme Project

Mia Feo and Lucia Ferreiro

Who We Are

This would be everything that represents us, and the iconic things about Gulliver. This will remind everyone know who we are as a school. For example the student government is part of Who We Are, the sports are part of Who We Are, the NJHS is part of Who We Are. This theme is going to be like all the iconic and important things that happen throughout the year.

10 Sentences:

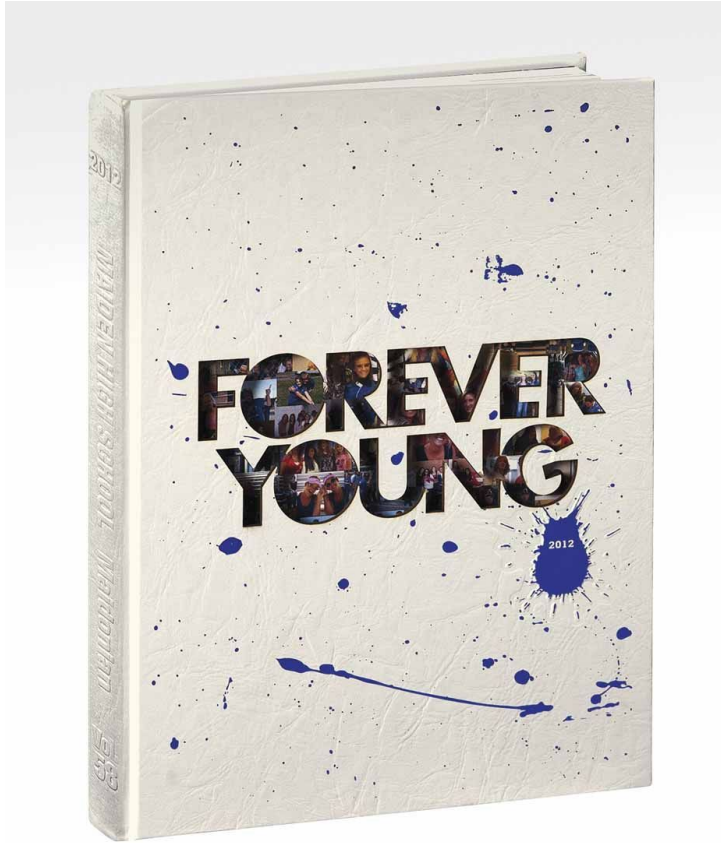

We returned to the new campus, excited to see what the year held. We put on a bright smile, excited and nervous for what was to come. We were nervous about our classes and our projects, and most of all, we didn't know **who they were**.

As the year went by, we started to learn more about ourselves. We tried out for the Fall Play Charlotte's Web. We competed and did our very best in sports. We found our passions in clubs and electives. We discovered all that makes us **Who We Are**. We finally felt more comfortable with ourselves.

As we wrapped up our classes, finished our projects and said our goodbyes, we achieved our goals. We found ourselves within our school and community. We discovered more about **Who We are**.

Who We Are- community, hardworking, friendly, athletic, intelligent, compassionate

Cover:

Our idea is that you can vaguely see the picture through the cutout of letters, but when you open the book it is the whole picture that represents Gulliver.
