

Borja & Simon

This style represents the excitement that came after 2020, when the pandemic ended in 1918 people were happy and went around in a happy mood in general, which is what is happening today. This yearbook should show Gulliver's pride very strongly.

Finger Paint

Childos Arabic

From day one, we knew this year was going to be great. Everyone had great spirits coming back from summer. When we came to school, there was so much to be excited about; new administration, new building, new students, new teachers, and especially the sports that our school plays. Football season was a great achievement because it was the most popular. We were the best in our region.

Everything went by so fast. By the middle of the year, we had explored our capital city Washington D.C. and learned about the functions of our nation. Our soccer cheered as they won the championship. Winter break sent students all over the world and skiied.

Then before we knew it, we were cleaning out our lockers on the last day. It went by in a flash.
